Southampton Bonded Warehouse

National Rollout Tilstone

Concept Group were approached by Tilstone to provide a signage family and consistent brand theme for a national roll out of signage across their portfolio, combined with providing a full turnkey solution to supply and install the signs.

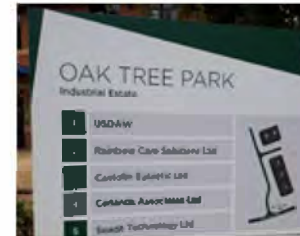

Working with the brand guidelines from Tilstone, the designers at Concept Group have created the signs for each site with a consistent look and feel. Each site required a variety of different forms of signage, including welcome, way finding and tenant listings.

With over 50 sites across the UK the re-designed signage family creates a consistent and recognisable brand for Tilstone's portfolio.

Gary Lees, a senior assets manager from Tilstone commented:

“Concept have recently completed a large rebranding exercise of multiple estates across the whole UK and I was extremely impressed by the efficiency of the whole process from design to installation. I would not hesitate to use Concept again and recommend them to others.”
